

Name: **OLBARNOTI**

Pride Group: **MONIKO/ENKOYONAI**

Conservancy: **OLARE OROK**

Unusual Features: **NONE**

Description: Olbarnoti means 'smaller boy' - his mane is smaller than that of his partner Lolparpit. He can also be distinguished from Lolparpit by his patchy nose and the large ID spot on the right side. His ear tears are also useful but similar to Lolparpit.

Gender: **MALE**

Age: **ADULT**

Birth Year: **2005**

Locations:

Ntiakitak Stream, Albitzia, Hammerkop,
Kereputt Stream, Naronyo Hill, Moniko
Hill, Olempalakae, Sankai Spring
